Project Title: Denis Villeneuve Website

- The website will be about movie producer Denis Villeneuve and some of his major productions. I want to include information about his background and influences and a gallery for his movies. I'd like to build this site with multiple pages, rather than a long, single page website. I plan to implement the global as a sticky bar on top of all pages.

- Home Page/Introduction – I want to talk about the background of Denis Villeneuve and his impact in the movie industry.

- Early life and education

- Becoming a director

- Major productions

- Sources – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
